

Project Profile

Kerasotes Theater At Galewood Yards

Chicago, Illinois

Size

64,000 sq. ft.

Completion Date

Spring 2006

Project Highlights

The Galewood Yards project is a state of the art, 14 theater complex with all stadium seating. Construction was comprised of architectural precast exterior walls and back to back 6 inch precast demising walls for excellent acoustics and speedy construction. To meet the Green requirements for the City of Chicago, the roof comes complete with landscaping to reduce heat and carbon dioxide.
